

Winter 2010

NEWSLETTER

With the cool winter weather arriving, why not start thinking about enjoying a Dermalogica Facial Treatment at the end of your busy day. It's a great way to distress the mind and renew your skin's appearance to give your skins hydration a head start.

If you can't manage an hour but have a specific concern like ageing around the eyes or dull lack-luster skin, then try our MicroZone Treatments. These only take 20mins and give you results that are specific to your concern. No fuss, and can be squeezed into the busiest of schedules.

We freshened up the Salon in April with some fresh paint, new nail tables and a minor alteration to the internal walls. We are very happy the finished look and hope you are too.
